Nevada 89801 , hereby makeSapplication for permission to appropriate the public State and Zip Code No.
waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a
copartnership or association, give names of members.)
· · · · · · · · · · · · · · · · · · ·
The course of the represed enversioning Gashute well
1. The source of the proposed appropriation appropriation Name of stream, lake, spring, underground or other source
2. The amount of water applied for is O.05 One second-foot equals 448.83 gals. per min.
(a) If stored in reservoir give number of acre-feet
3. The water to be used for stock water and domestic Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one usc.
4. If use is for:
(a) Irrigation, state number of acres to be irrigated
(b) Stockwater, state number and kinds of animals to be watered 400 cattle, 2,000 sheep
(c) Other use (describe fully under "No. 12. Remarks")
(d) Power:
(1) Horsepower developed
(2) Point of return of water to stream
5. The water is to be diverted from its source at the following point. Within the SEINEL Section3. Describe as being within a 40-acre subdivision of public
T.30N., R.66E., M.D.M., from which the SW corner of Section 34, T.31N., survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.
R.66E., bears N.43°14'W., 2,800 ft.dist.
6. Place of use SE ¹ / ₄ NE ¹ / ₄ Section 3, T.30N., R.66E., M.D.M. Describe by legal subdivision. If on unsurveyed land, it should be so stated.
7. Use will begin about January 1 and end about December 31 , of each year. Month and Day Month and Day
8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and
specifications of your diversion or storage works.) drilled well with casing, jack pump State manner in which water is to be diverted, i.e. diversion structure, ditches and
with gasoline engine; short pipe line to stock troughs flumes, drilled well with pump and motor, etc.
flumes, drilled well with pump and motor, etc. 9. Estimated cost of works \$6,000.00

	Estimated time required to construct works two years		
11.	Estimated time required to complete the application of water to beneficial use.	three year	's
	Remarks: For use other than irrigation or stock watering, state number and consumptive use.	type of units to be s	served or annu
